

Seasonal Pasture Growth and Feed Demand Curve.

1. Copy the above graph into your notes.
2. Shade the regions where a:
 - (i) feed deficit,
 - (ii) feed surplus,occurs. Use a key to label your graph.
3. Mark on your graph when the following events occur during the year:
 - (a) flushing
 - (b) lambing and pre-lamb feed increase.
 - (c) weaning.
4. Name three ways the farmer can overcome the problem of feed deficit.
